

EDEN ON THE SEAS

Amongst sheer luxury on the seas, you can also experience the Garden of Eden aboard the Celebrity Edge

- By Aruna Rathod

Celebrity Edge, the cruiseliner has introduced some amazing features to making sailing on the high seas even smoother. Among the many highlights of the cruise are - a 'magic carpet', which can be moved to different heights; changed to different venues, setting the ambiance as per the requirement; and 'a room that lives' called Eden Garden with a variety of flora, art pieces and constantly changing views. Eden will awaken every sense—taste, sight, sound, smell, and touch.

Eden is a multi-level, architectural masterpiece developed in collaboration with Scott Butler, a founding partner of Wilson Butler Architects, award-winning architects for the arts, and Patricia Urquiola, world-renowned industrial designer, art director, and visual genius. Bright and airy, three stories of windows bring in the shimmering morning light and offer stunning views as far as the eye can see.

Besides the unlimited entertainment, it has staterooms with Infinite Veranda, where with the touch of a button, your entire living space becomes the veranda, letting you walk right out to the water's edge, remote control room lighting, multiple pool sides, special places for theatre shows, meetings, authentic masseuse services, special cuisines especially curated for the cruise and a promise to make its vacationers explore the exotic locations of Europe like never before, on a cruise.

Celebrity Edge introduces the industry-changing concept of outward facing spaces designed to build a greater connection between you and the sea. Eden is the essence of this concept, a true window to the world—literally. It is three levels of sensory experiences completely wrapped in glass. Three stories of windows that look out to the ocean, with two areas of alfresco seating on both sides of Eden for breathing in the refreshing salt breezes.

The Solarium is one of the most popular spots on every Celebrity ship and in the Celebrity Edge, the Solarium has been reimagined by celebrated architect Tom Wright, who used the ocean as his inspiration for this adults-only sanctuary.

Visit a Rooftop Garden while on the cruiseliner. Like a hidden pocket park in a bustling city neighbourhood, just that it happens to be miles out at sea. This relaxed yet playful outdoor escape atop the ship helps grown-up vacationers reconnect with their inner child, and offers a place to slow down, daydream, and have some fun.
